Small Animal Ultrasound Training Courses

An intensive hands on two day workshop designed to give you greater confidence and improve your small animal ultrasonography skills, knowledge and techniques.

Our small animal ultrasonography course is specifically designed for vets who have limited or basic experience with scanning small animals but would like to expand their knowledge, technique and application. Learn how to scan small animals from a practical hands-on perspective.

Ideally suited to people who have just purchased, considering purchasing or have recently upgraded to a more advanced ultrasound. This course will enable you to understand how ultrasound works, how to use more advanced features and how to scan small animals with improved image quality. Obtain a broader understanding of ultrasound equipment, it’s capabilities and performance from experienced trainers who understand and use ultrasound.

The course is limited to small groups to enable attendees to achieve maximum scanning and instruction time. Be quick to reserve your place!

All equipment is supplied but you are welcome to bring along your own portable ultrasound scanner.

Course Duration: 2 Days
Hours: 9am to 5pm each day
Course Cost: $1,540 inc GST

Patients welcome for scanning! Ask about bringing along a dog.

Training Venues, kindly provided by:
Southern Animal Emergency Centre
248 Wickham Rd, Highett, VIC 3190

Sean Muir - BVSC
After 10 years working in private Veterinary practice, Sean focused on diagnostic ultrasound. He has since achieved qualifications in diagnostic ultrasound for both Veterinary and Medical application. Sean now runs his own referral diagnostic ultrasound business and is a frequent lecturer and consultant for veterinary ultrasound.

Ron Mellenbergh
After completing studies in electronics, Ron worked for 12 years with the only Australian manufacturer of diagnostic ultrasound scanners back in 1982. He has trained people all over the world in ultrasound physics, principles & servicing and is able to impart complex principles in an easy to follow and understand manner.

All AVA registered participants will be credited 23 Continuing Education points
